

Kelsey Suyehira  
Checkpoint 3  
CS 597 - Enterprise Web Development  
BSU Fall 2015

Nov 12, what new functionality or technical hurdle will you have complete?

- Hook up standard tools including:
  - Google API
  - Query suggestion
- Create survey for collecting feedback from users

Unfortunately, I was not able to complete my goals for this checkpoint, again. Although I have spent a good amount of time thinking about the overall design of the project and feel that I can still catch up and complete most of my goals before the end of the semester.
